**(3)**

**Unit - II**

2. Read the following passage carefully and answer the questions given below.

Environment is a very broad term. It includes everything that is around, above and below us. Air, water, plant and animal life is all included in the environment. The greatest problem of present world today is the pollution of environment, be it water, air or sound. Pollution literally means fouling the natural environment by some unnatural elements which make it polluted to the extent that it becomes unhealthy for plant and animal life. The worst part of the story is that it is only the man who is responsible for this development and which, if not controlled to a reasonable extent, can lead humanity to extermination and this beautiful creation of God will see its end at its own hands. National calamities like earthquakes, cyclones, famines,
