2. (a) Read the following passage and answer the question given below it :

The development of science and technology during the last few centuries has brought about a lot of realization and feeling of one world community and the people of the world. Owing to the fast means of transport and communication, the world has become quite small. News today travels very fast all over the world. An incident taking place in one country affects the whole world. The spread of newspapers, radio and television has developed the feeling of internationalism. In the modern age, no nation can live in isolation. The international events influence a nation's internal and external policies greatly. The economic and technological development of the different countries has become interdependent countries depend a great deal on one another for their existence. There is a lot of talk of international co-operation in all the fields of development.
